GEN. MANAGER BUYS TICKETS.

Manager Leroy Trice of the I. & G. N. invests Money in Fares.

No doubt it was a brand new experience for General Manager Trice to buy railroad tickets, but that was just what he did this morning, when he accompanied to the train two little nieces from Longview, who visited his family here. He walked up to the ticket window, bought two tickets for the little folks, placed them on the sleeper, bade them good-bye, and proceeded to his office, no doubt reflecting on the changes that have brought about the necessity of a general manager buying fares over the line of which he is the head.

District Court.

In the case of Mrs. M. E. Tucker vs. W. H. Bouchillon, the jury returned their answers to the issues submitted, finding the defendant acted in the belief that the plaintiff's son was over 21 years of age. They found him liable on the issue of permitting the minor to remain on the premises.

The case on trial is J. D. Fain et al vs. T. A. Nelms, involving the boundary between two tracts of land near Elkhart.

Ordered Out.

The blacksmiths employed in the I. & G. N. shops, mention of whose action in quitting work yesterday afternoon was made in yesterday's Herald, went out on order of the grand officers of the union. APPEALS TO FEDERAL COURT.

Tyler General Offices Cases and Texas & Pacific Cattle Case.

Austin, Texas, July 12.—The Texas supreme court has allowed a writ of error to the supreme court of the United States in the city of Tyler-Cotton Belt general office and shop case. The bulky transcript of the record has just been completed and will be sent to Washington. It made over 700 pages. The Texas court held that the Cotton Belt must maintain its general offices and shops at Tyler in accordance with the agreement with the people of that place in return for bonus, land, etc., given the company, and the statutes governing the location of general offices. From this decision the Cotton Belt is appealing and the highest court in the land will pass on the questions involved. The Tyler people won a temporary victory, at least, and, of course, have the same chance to win in the higher court and have the nine points of law in having actual possession.

COPELAND'S JEWELRY STORE

Two Kinds of Economy.

YOU can economize in Pinao buying in two widely different ways. You can buy a Piano that looks pretty, but concerning which neither you nor your friends know anything, and probably get it for a small sum of money; or you can buy a Piano of established reputation, a Piano that all musicians will unhesitatingly and unreservedly praise, at a money-saving Piano Store. You don't need to be told which is the foolish economy, and which is the wise. There are no better Pianos in their grade than the line we carry. And we can absolutely and positively save you money on any of them.

If your present Glasses fail to give you ease and comfort, there's something wrong. Is it your Glasses or your Eyes?

Either is bad enough and should bring you to us at once. We like to discover unusual Eye defects, the kind that puzzle the average Optician.
